**DETAILED ACTION*****Election/Restrictions***

Claim 1 is allowable. Claims 3, 5, 7, 10, 12, 14, 16, 18, and 21, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between species I, II, III, and IV, as set forth in the Office action mailed on December 29, 2005, is hereby withdrawn** and claims 3, 5, 7, 10, 12, 14, 16, 18, and 21 are hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

***Drawings***

The replacement drawings received on October 13, 2006 have been considered. These drawings are accepted as formal.

**EXAMINER'S AMENDMENT**

**IN THE CLAIMS**

"Claim 38" which follows claim 39 and appears on page 18 of the amended claims filed October 13, 2006 has been renumbered --Claim 40--.

Claim 40 has been cancelled.

The following is an examiner's statement of reasons for allowance: The prior art, taken as a whole, does not teach or render obvious the claimed combination comprising a tilt adjusting steering apparatus comprising:  
Claim 1: An operator lever for interlocking with and swaying a gear pressing lever while being swayed by operation of an operator, wherein a center of swaying movement of said gear pressing lever and a center of swaying movement of said operator lever are different from each other.

Art Unit: 3682

Claim 27: A gear pressing lever which pivots about a first pivot axis to engage and disengage said movable gear and said fixed gear and an operator lever which pivots about a second pivot axis different from said first pivot axis to pivot said gear pressing lever for engagement and disengagement of said movable gear and said fixed gear.

Claim 36: A gear pressing lever which pivots about a pivot axis disposed in a plane substantially perpendicular to a tilt adjustment axis of said rear steering column member, to engage and disengage said movable gear and said fixed gear, and an operator lever which is operable by an operator to pivot said gear pressing lever for engagement and disengagement of said movable gear and said fixed gear, said operator lever acting on said gear pressing lever through a portion which moves relative to said gear pressing lever during operation of said operator lever.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
